WHAT WE TRADE

01 STAINLESS STEEL

### Stainless steel scrap

430, 304, 316 and 201, kept in separate streams and supplied as bales, shred, sheet or coil.

02 SPECIAL ALLOYS

### Special alloy scrap

310, Inconel 718 and other high-nickel alloys, segregated for the intended remelting application.

03 FOR REMELTING

### Grinding media and mill liners

Worn or non-reusable high-chrome grinding balls, mill liners and mill scats.

STAINLESS GRADES

## Four grades, kept apart.

| | |
|---|---|
| 430 | Ferritic · 16–18% Cr · nickel-free |
| 304 | Austenitic · 18% Cr · 8% Ni |
| 316 | Austenitic · 16–18% Cr · 10–14% Ni · 2–3% Mo |
| 201 | Austenitic · 16–18% Cr · 3.5–5.5% Ni · 5.5–7.5% Mn |

HOW WE SUPPLY

# One exporter, a network of yards.

OWN YARD · HWASEONG

### Grinding media and mill liners
